

FABCO, Inc.

Who We Are:

FABCO, Inc. is the new name of the company you have trusted for over 25 years to solve your toughest filtration problems in the Pulp & Paper industry.

FABCO, Inc.'s Focus is the Pulp and Paper Industry.

As an independent manufacturer of filtration components, we have the technology, experience, and dedication to quality to solve your toughest filtration problems. From the woodyard to the paper machine, we have filtration solutions to address your needs. Some of the key manufactured products we offer are:

- Disc Filter Sectors & Parts – Over 33,000 Produced Since 1981
- Drum Filter Covers & Parts
- Belt Press Belts & Parts
- Sector Covers – Synthetic and Stainless Steel – Over 1,000,000 Produced Since 1981
- Vibrating & Polishing Filter Screens
- Recaustisizing Products – Lime Mud, Dregs, Liquor Socks, Pressure Disc Filters, and Salt Cake Belts

In addition to our manufactured products, **FABCO, Inc.**'s real strength is in our experience and ability to find specific solutions to your filtration challenges. With our Mill Service Group, we can assist your staff in finding the best filtration solution for each specific application. Some of the services we offer include:

- On-site inspection
- On-site leaf testing – using your lab to validate the results
- Consultation and training on the fundamentals of filtration
- Mechanical and process services

FABCO, Inc. manufactures all of its products at its two facilities in Winthrop, ME and serves clients throughout North America. Call **FABCO, Inc.** today and let the independent experts help you solve your filtration challenges.

FABCO, Inc. – F.A.Q.s and Facts

FAQ: Isn't FABCO, Inc. a new company? How can they have over 25 years of experience?

Fact: FABCO, Inc. started as a result of a change in ownership of Filter Belts, Inc. The new company is focused solely on serving the Pulp & Paper industry.

FAQ: What does it mean to be an "independent manufacturer"?

Fact: As an independent manufacturer of filtration components we can make custom filtration products specific to your applications. We also have the freedom and capability to custom design solutions based on your specific filtration needs.

FAQ: How is FABCO, Inc. different from other after market suppliers?

Fact: Our experience makes the difference. We are committed to working with you to find solutions to your filtration problems. Because we focus on the Pulp & Paper industry, we have a vested interest in your success. We'll work with you to find the best solution for your application.

FAQ: We can buy filter components anywhere. Why should we consider FABCO, Inc.?

Fact: FABCO, Inc. offers unsurpassed quality and service with every product we make. All of our custom made products are manufactured locally. Concerns and questions will be answered promptly by our experienced staff.

FAQ: Isn't FABCO, Inc. a small company? How can they meet the needs of our mills?

Fact: FABCO, Inc.'s manufacturing operation is bigger than you may expect, and we serve clients all over the US, Canada and Mexico. We have never outgrown the advantages of a smaller manufacturer to offer high quality and attention to detail.

FAQ: What can your Mill Service Group do for us?

Fact: Our experienced technicians can help in a number of ways. We offer on-site process and mechanical services in emergencies and on a scheduled basis, disc filter optimization, inspections and recommendations, on-site leaf testing, and filtration training for your staff.
